Frontend Technologies:	Backend Technologies:	Tools & Platforms:	Others:
HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS	PHP, MySQL, mongoDB	Git, GitHub, VS Code, XAMPP, cPanel, phpMyAdmin	Responsive Web Design, RESTful APIs, AJAX, Hosting on Shared Servers (Mumuhost, etc.)

PROFESSIONAL EXPERIENCE

1. Freelance Web Developer

Self-employed | Jan 2024 – Present

- Designed and developed responsive websites for small businesses using HTML, CSS, JavaScript, and PHP.
- Integrated contact forms, product pages, and admin panels with MySQL databases.
- Hosted and maintained websites using shared hosting services like Mumuhost and cPanel.
- Worked on real-time web features using Firebase for chat functionality.
- Optimized websites for performance and mobile responsiveness.

2. Project Developer – Ponnila Herbals Website

ponnilaherbals.in | Oct 2023 – Present

- Designed and developed responsive websites for small businesses using HTML, CSS, JavaScript, and PHP.
- Integrated contact forms, product pages, and admin panels with MySQL databases.
- Hosted and maintained websites using shared hosting services Mumuhost and cPanel.
- Integrated secure payment gateways (Razorpay, Paytm) for e-commerce transactions.
- Optimized websites for performance, SEO, and mobile responsiveness.

INTERNSHIP

Web Development Intern – Rail Infotech Services

May 2024 - June 2024

- Performed system servicing, OS installations, and hardware troubleshooting for client systems.
- Learnt and worked on .NET basics during the training period.
- Developed a cab booking website for Raniammal Travels with SMS OTP login system using third-party gateway integration.
- Created a PF report generation page and staff attendance module for Madurai Post Office Division using FPDF for PDF exports.
- Collaborated with the team to deliver client projects on time with proper documentation.
- Attended sessions and completed practical tasks on networking basics and server concepts.

PROJECTS

Quatrobot Dog Robot with Face Monitoring & Web Control

- Built a four-legged robotic dog (Quatrobot) capable of controlled movements using custom Arduino code.
- Integrated a face monitoring system using Raspberry Pi and Python for human detection and tracking.
- Developed a website dashboard to remotely control the robot and monitor face detection logs in real time.

Webcoder2025.in – Student Portfolio & Talent Showcasing Platform

- Developed a dynamic platform to host and showcase web designing students' portfolios and live projects.
- Created a custom mini cPanel for each student to upload and manage their work independently.
- Built a project showcase section with filtering options to view by student, category, or tech stack.
- Integrated a student hiring section for recruiters to view student profiles and connect for internships or roles.
- Hosted and maintained the platform using shared hosting with secure file handling and MySQL-based content management.

Ponnilaherbals.in – Herbal E-Commerce Website

- Developed a full-featured herbal e-commerce platform with product listings, cart, checkout, and order management.
- Built a custom admin panel for stock updates, order tracking, and customer management.
- Integrated secure payment gateways (Razorpay & PhonePe).
- Managed domain & hosting with cPanel deployment on shared server.

Branding Contributions:

- Designed the logo, letterhead, and complete brand assets to maintain consistency across digital and print.
- Delivered a full identity kit including typography, color palette, and print-ready designs.
